Bottled Water Legislation Seminar

Wednesday 20th May 2009

Loughry Campus

Data protection

The personal information provided by you will be held on a database by DARD, in accordance with DARD's Data Protection Act Registration: Z6402243. Your details may be used for the delivery or fulfillment of a DARD service. We may use this information to contact you regarding future products and services.

If you do not wish your details to be used for this purpose, please tick the box here

The Food Standards Agency, Northern Ireland (FSANI) in partnership with CAFRE is hosting a seminar on bottled water legislation. This seminar is part of the continuing commitment to engage with producers and district councils to further develop practical understanding of food law.

This one day course is composed of two parts. The morning session will consist of presentations which will be relevant to both the processing sector and district council participants.

Topics covered will include:

- the experience of enforcers and producers of bottled water
- a primer on the hydrogeology of underground water sources (how to identify the ideal groundwater source, how to spot potential risks)
- the hygiene and microbiology issues associated with bottled water production.

The afternoon session will be for district council participants only and will examine in depth:

- practical scenarios involving groundwater and other bottled water sources
- and the application of legislation and guidance in practical situations

(Full attendance of the seminar contributes towards 7 hours CPD)

Who should attend?

This event is targeted at food business operators involved in bottling water and environmental health officers involved in inspection of bottled water plants or sampling of bottled waters.

Date: Wednesday 20th May 2009

Location: Food Technology Centre, Loughry Campus, CAFRE, Cookstown

Cost: £25
