

Screenshot of spreadsheet calculator to estimate slurry dry matter, N, P & K content

Diameter of 500ml cattle slurry puddle centimeters

Spreading method

Season of year

Application rate gallons/acre

Predicted dry matter content of slurry %

Slurry nutrients				
	Nitrogen	Phosphate	Potash	
Estimated slurry nutrient analysis	3.3	1.6	3.7	kg/m ³
Bagged fertiliser equivalent of applied slurry	19	43	91	units/acre
	23	54	114	kg/hectacre
