

Quality Assurance Team Leader Maternity Cover – Retail

Job Ref: QATLMAT1021

We have an exciting opportunity for a Quality Assurance Team Leader to join our team within the Dungannon Retail site. Working closely with the Food Safety & Quality Management team and the Production team, this will be a hands-on role, supporting & leading the shift Quality Assurance Team on the production lines to ensure we deliver a high-quality product to our customers. We observe strict adherence to our Food Safety regulations and standards, and we work collaboratively with our production to embed a Food Safety Culture throughout the site.

The Role:

- Responsibility for Quality standards within production
- Responsible for leading the Quality Assurance team on the shift, in terms of completion of work, communication and effectiveness
- Supporting with the recruitment and On-boarding of new QAs
- Initial training of new QA team members
- Labour resource planning
- QA competency checks
- Verification of Quality documentation within production
- Involvement in delivery of Lean 6S
- Raw Material, Finished Product and Label checks and verifications
- Metal detector calibration & new product set up
- Integrity of process including label verifications, price lists & batch lists
- Providing up to date reports, analysis and feedback to the Quality Manager
- Investigating with Root Cause Analysis on any Customer complaints
- Audit and customer engagement
- Administration and Reporting on various KPIs
- Project Involvement
- Daily engagement with Production Management and reporting on standards
- Internal audits
- Supporting and driving various Food Safety Culture initiatives
- Working collaboratively with all departments
- Following our Business Code of Conduct and always acting with integrity and due diligence
- Lead by example team development approach

The Person:

- Formal Qualification in a Food Science or related discipline is desirable
- 1 year in a Supervisory position within Food Manufacturing is desirable
- Understanding of Food Safety & Quality processes
- Good knowledge of industry standards
- Keen interest in helping lead and development a team to deliver high standards
- Ability to make decisions, help develop strategy and drive an agenda forward
- Strong communication skills and the ability to positively influence
- Self-motivated, professionally driven approach with the ability to deliver improvements

This role operates on a 4 on, 4 off shift basis, including weekends.
